

Purdue North Central Dual Credit/Concurrent Enrollment Program

What is Dual Credit/Concurrent Enrollment?

Dual Credit/Concurrent Enrollment is an opportunity for students to receive college credit through a university by taking courses that are approved and offered at the high school, during the regular school day, taught by qualified high school teachers. Students use the books provided by the high school, and the teachers follow very similar curriculum, assignments and testing as their college faculty counterparts.

What are the benefits of Dual Credit/Concurrent Enrollment?

To Parents:

- Improved student opportunity for success in college
- Familiarity with university registration process
- Financial Advantages
 - Reduced tuition cost - \$98.12 per credit hour for the 2010/2010 academic year
 - Free/Reduced lunch students - 100% tuition assistance
 - No additional fees - no books, activity, lab, technology, or transportation fees

To Students:

- Satisfies requirements for the Academic Honors Diploma
- Jump start on credit hours – credits are posted to a Purdue Transcript
- Builds confidence for college success
- Seamless transition to college
- Familiarity with university registration process
- Opportunities to Study Abroad, double major, or additional internships in college

Do these courses transfer?

- The majority of Dual Credit/Concurrent Enrollment Courses taken to satisfy requirements for the Academic Honors Diploma are listed on the Core Transfer Library.
- If you desire to know how credits will transfer to a particular university or to your intended major, we advise you to contact the Registrar's Office of that institution, or go to the institution's website for course transfer information. You can also go to www.transferin.net to see how the credits transfer within the state of Indiana. Please feel free to contact me with further questions.
